

1)

The sentence

... channel by constraining the model to low energy K^{-} p data.

Was changed to

... channel by constraining the model to low energy K^{-} p scattering data.

2)

Comment from the referee to rewrite the following sentence:

A number of reports hints in this respect towards the production of the pK+L final state mainly via process (2.2) [8][9].

It was changed to:

Previous publications have reported indications which explain the production of the pK+L final state mainly via process (2.2) [8][9].

3)

The sentence

Suited observables to analyze the extent of accordance between the obtained ...

was changed to

Suited observables to analyze the agreement between the obtained ...

4)

Comment from the referee to change the following caption:

... Black points show the measured data, blue shows simulations of process

to

... Black points show the measured data, the blue line shows simulations of process

5)
