

Primordial non-Gaussianity, present status and future prospects

Sabino Matarrese*

Dipartimento di Fisica e Astronomia G. Galilei, Università di Padova

E-mail: sabino.matarrese@pd.infn.it

I will review both the general problem of the search for non-Gaussian signatures in cosmological perturbations, originated from inflation in the early Universe. I will discuss this issue both from the theoretical point of view and in connection with constraints coming from recent observations and future prospects for observing/constraining them.
